MARITIME CRM AND EXECUTION

IQX Connect helps maritime teams move from lead to job in one workspace.

A single operating surface for freight forwarding, ship chandling, shipping liners, ship management, container trading, conversion projects, and general maritime sales.

COMMERCIAL SNAPSHOT

Lead management, quotes, rates, bookings, and shipments stay connected.

Sales works from a spreadsheet-simple CRM while operations get the deeper freight objects they need to execute. The same account can carry every related record.

Leads | Opportunities | Contacts | Customers | Quotes | Shipments | Bookings | Job Costing | Invoices

Sorted by newest

Quote Ready

Sales Qualified

OPERATIONS SNAPSHOT

Shipment jobs, milestones, documents, costing, and invoices live on the same timeline.

CargoWise-like operational depth without forcing a heavy ERP experience on the whole team.

Leads | Opportunities | Contacts | Customers | Quotes | Shipments | Bookings | Job Costing | Invoices

REPORTING SNAPSHOT

Benchmark-style analytics show performance by time window, segment, and source.

Managers can read last month, rolling windows, and specific months, then compare deal flow, revenue, and customer health.

Leads | Opportunities | Contacts | Customers | Quotes | Shipments | Bookings | Job Costing | Invoices

Last month

BENEFITS SNAPSHOT

The platform is built to simplify the work while keeping the business in control.

Owners keep access, vocabulary, templates, and notifications under control.

Teams get a CRM that is fast to understand and easy to adopt.

Leads | Opportunities | Contacts | Customers | Quotes | Shipments | Bookings | Job Costing | Invoices

TRY IT LIVE

Sell the process, not the complexity.

Give maritime teams a workspace they can understand on day one, with the freight execution depth to grow into real operations.
